THE PERFECT UNION SUIT

If you have never worn one of these garments, you have never known what complete underwear satisfaction really is.

HATCH
One Button Union Suit

is more than a clever idea. It embraces the fundamental principles of the other types of one-piece undergarments, but eliminates all their annoying features. The ordinary Union Suit has nine or ten buttons running from neck to crotch. There is always straining and gaping. Just one button on the Hatch. Easy to put on. The wearer steps into the legs, pulls up the garment, inserts one arm and then the other as putting on a coat, and then fastens the One Button at the chest,—less than half the time and effort needed to don the ordinary kind.

And We Believe There Are 63,000,000 Hens in the Old U. S.

The following editorial appeared in the New York Evening Mail January 5—think it over!

LAYING EGGS TO MUSIC

Past on the heels of several important or important-if-true scientific discoveries that have gob-littered the columns of the public prints since the romaunt of the interstitial gland saw the light, comes a significant announcement from Indiana, the exact literary center of the United States.

A farmer, having discovered a phonograph in his spare sock on Christmas morning, inadvertently permitted his hens to listen to the music it produced. The results of the impromptu musical mornings have astonished and delighted him. His hens, only tolerable layers in the old musicless days, have begun to double their output.

This Indiana farmer—Habig is his euphonious stage name—now not only permits the hens to overhear the music as the phonograph grinds out its notes in the kitchen, as he used to do, but he has installed a phonograph right in the hen house, where 122 Orpingtons and Plymouth Rocks, Buff Cochins and Brahmas dwell together in peaceful industry. The result is that, whereas formerly he gathered 65 eggs in one day, he now collects 115.

It must be carefully noted, also, that the music furnished to the denizens of Habig's hen house is jazz—only jazz, to the entire exclusion of the higher forms of musical art. We would suggest that Mr. Habig develop his remunerative experiments further by subjecting his hens to the elevating influences of such classic selections as Dvorak's Symphony No. 3, in F major, Opus 76; the Bach Concerto in G minor, Opus 26; "Sounds of the Forest," from Wagner's "Siegfried," and Beethoven's Sonata, Opus 57.

We are confident that these works would impart to the fruit of Mr. Habig's spiritually stimulated hens arpeggio effects and pizzicato nuances that would open new worlds of emotional uplift to the ultimate consumers thereof.

We await from Mr. Habig interesting disclosures of the possibilities of the higher forms of music upon the languid hen that hesitates on the verge of being lost in the sterile region of parasitical unproductiveness.

Dizzy

If you get up in the morning feeling dizzy and weak, it usually indicates a sluggish liver, or poor digestion. Aside from its unpleasantness, this condition may become dangerous; it should be checked before your vitality becomes impaired, and you are then less able to withstand disease.

A teaspoonful of "L. F." Atwood's Medicine will stimulate the action of your digestive organs, and re-establish normal conditions. Taken regularly it will quickly restore your vitality, and you will sleep soundly and awake refreshed, and clear-headed.

Powders, and tablets containing Acetanilid or other coal-tar derivatives tend to weaken the heart's action. The true "L. F." simply sets natural methods in action and benefits the entire system. If you have never used it send for a bottle now. Your druggist sells it for 50c a bottle, 60 teaspoonful doses. The "L. F." Medicine Co., Portland, Maine.

"Tone Up"

After the rigors of winter, during which time you have lost some of the energy, ambition and "pep" of normal times, you need a tonic.

You can regain all your previous strength and energy as well as get rid of that languid, listless, "what's-the-use" feeling.

Also improve your appetite and digestion, by taking the regular course of one of these special tonics:

REXALL BEEF IRON & WINE
BAMBOO BRIER BLOOD BUILDER
IRON & CASCARA TONIC WITH CELERY
SARSAPARILLA TONIC, & PEPTONA.

These preparations are not so-called secret remedies. We can tell you what they contain, and in what way they will benefit you.

RECEIVED

On Wednesday, April 21, we received a call from our Advertising man—whether he came to criticize our way of doing business or to inspect our line of goods is the question. All the criticism he gave us was this—You are selling your clothing and furnishings much lower than the city stores.

Summer Underwear

It seems rather early to be talking about summer underwear—as far as wearing it goes, it is early, but as far as the price goes—now is the time to buy. Many have bought already and our stock has been reduced somewhat, but we have at present a good stock to choose from and in all sizes. If you desire to make a sure and safe investment, we suggest that you buy your summer underwear now. Prices will be extremely high later on. Watch our Ads. for the criticism of our Advertising man.

EVERY minute a battery works there is evaporation going on, but it affects the water only—never the acid. No matter how old the battery may be it has its full supply of acid, and that acid keeps its strength unless some of it happened to spill out. Water is the only thing that should ever be put into your battery and only enough of that to keep the solution within a quarter-inch of the tops of the plates.

BULLDOG STARTER For Ford Cars

A "Bull Dog" eliminates all possibility of injury in cranking your engine—in fact, does everything in starting your car that the high-price electric starters do. But—

Does not consume any gasoline. Does not take any power from your motor.

Does not wear out high-price batteries. Does not cost anything to maintain. But is—

Always ready, and will start a Ford at any and all times under any climatic condition.

No battery; no springs; no ratchet—the three things that have made starters for Ford cars inefficient and costly of upkeep. This is purely a friction device, and must be seen to be understood and appreciated.

COURAGE

If I were vile, of wicked men most vile,
If I were steeped, soul-steeped in deadly sin,
Despised by all, by neighbors, friends and kin,
Outcast of men, alone in drear exile,
Still would I not despair, but hope the while,
As hope must all who once God's friends have been.
As hope did He who died for sinful men,
And pray for grace to love again and smile.
No need is there to curse love and heart,
No need to forget that God doth sinners love,
No need to despair though friends from us depart,
For God's dear Son still waits from above,
And bids us know He will His grace impart,
As on the cross the dying thief He shrove.
—FATHER CASSIDY.

ROOTS, BARKS, HERBS

Known to Possess Unequaled Value In Spring Ailments

Are prominent ingredients of Hood's Sarsaparilla, in which they are so combined as to be most effective.

This great blood-purifying and strength-giving medicine is easily the leading proprietary medicine for the blood, stomach, liver and kidneys, which almost universally need attention in the spring. Thousands take it year after year with entire satisfaction for that tired feeling, that loss of appetite, that eruption on the face or body, and that low or run-down condition of the system so common now. And they enthusiastically recommend it to others.

Begin taking it at once, three times a day after meals. It is pleasant to take and makes food taste good.

If you need a laxative or cathartic, take Hood's Pills. You will find them gentle and thorough.

Thought End Near States Emerson

Farmer Weak As Baby And Raptidly Failing, But Tanlac Soon Put Him On His Feet

"I have taken only one bottle of Tanlac but it has done me more good than everything else I have taken combined," was the statement made by A. H. Emerson when he called at Cuppy's drug store in Portland, Maine, the other day to get his second bottle. Mr. Emerson lives on Route 1, West Scarborough, Maine, where he owns and runs one of the largest stock farms in that section of the country.

"After I got up from the flu last winter," he continued, "I was not only in a weakened, run-down condition, but I was also troubled with a case of acute indigestion. I could hardly eat a thing that would agree with me, and at times the pains in my stomach were so bad that it looked like I was going to die in spite of everything that could be done. As I got no strength or nourishment of any kind my condition kept getting worse and worse until I was beginning to think there was no hope for me. My nerves were upset and my sleep was so broken and irregular that I felt about as bad when I got up of mornings as I did when I went to bed the night before. From morning till night I was so tired and worn-out that I could hardly drag one foot after the other, and when night came I felt as weak as a baby."

"I took many different medicines, but nothing did me a particle of good until I began taking Tanlac, and as I said, I have taken only one bottle but such a remarkable change has come over me that I feel like a different person altogether. My appetite has come back and I can eat anything I please and digest it perfectly without a pain in my stomach or even without so much as an uncomfortable feeling. I am enjoying my meals and what I eat is giving me back my strength and energy right along. My nerves are steady and I am sleeping soundly and I get up of mornings ready for as big a day's work as any man. Tanlac has certainly put me back on my feet in a strong, healthy condition, and I am pleased to give it my endorsement."

Tanlac is sold in Norway by A. L. Clark Drug Co., and in West Paris by S. T. White.
